SUPPLEMENTARY INFORMATION:

Background

On May 1, 2017, the Department published the notice of initiation of the third sunset review of the antidumping duty order on tin mill products from Japan, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).¹ On May 11, 2017, the Department received a notice of intent to participate in this review from ArcelorMittal USA LLC, and on May 15, 2017,

¹ See *Initiation of Five-Year (“Sunset”) Reviews*, 82 FR 20314 (May 1, 2017).

the Department received a notice of intent to participate in this review from United States Steel Corporation (collectively, domestic interested parties), within the deadline specified in 19 CFR 351.218(d)(1)(i). These domestic interested parties claimed interested party status under section 771(9)(C) of the Act, as manufacturers of a domestic like product in the United States.

On May 31, 2017, we received complete substantive responses for this review from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no substantive responses from respondent interested parties, nor was a hearing requested. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department is conducting an expedited (120-day) sunset review of the order.

Scope of the Order

The products covered by the antidumping duty order are tin mill flat-rolled products that are coated or plated with tin, chromium or chromium oxides. Flat-rolled steel products coated with tin are known as tin plate. Flat-rolled steel products coated with chromium or chromium oxides are known as tin-free steel or electrolytic chromium-coated steel. The merchandise covered by the order is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS), under HTSUS subheadings 7210.11.0000, 7210.12.0000, 7210.50.0000, 7212.10.0000, and 7212.50.0000 if of non-alloy steel and under HTSUS subheadings 7225.99.0090, and 7226.99.0180 if of alloy steel. The HTSUS subheadings are

provided for convenience and customs purposes. The written description of the scope of the order remains dispositive.²

Analysis of Comments Received

All issues raised in this review, including the likelihood of continuation or recurrence of dumping in the event of revocation and the magnitude of the margins likely to prevail if the order were revoked, are addressed in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice. The Issues and Decision Memorandum is a public document and is on file electronically *via* Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, we determine that revocation of the antidumping duty order on tin mill products from Japan would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail would be weighted-average dumping margins up to 95.29 percent.

² A full description of the scope of the order is contained in the memorandum to Gary Taverman, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, from James Maeder, Senior Director performing the duties of Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, "Issues and Decision Memorandum for the Expedited Sunset Review of the Antidumping Duty Order on Certain Tin Mill Products from Japan" (Issues and Decision Memorandum), dated concurrently with these results and hereby adopted by this notice.
